The Waterfront were an early Manchester supergroup formed in 1983. The band consisted of Andy Couzens (Guitar), Gary 'Mani' Mounfield (Bass), David 'Kaiser' Carty, John Squire (Guitar), Chris Goodwin (Drums). Although the band never gigged they did record 2 now legendary tracks in a small studio in Dukinfield. A handful of cassettes were distributed among friends and to local venues. These recordings have now been lovingly re-mastered from the original ¼ mastertape, courtesy of Andy Couzens for a special Record Store Day release to raise money for The Christie in Manchester. Andy and John later formed The Stone Roses with Mani joining a few years later. Chris ended up in numerous bands before having success with Andy in The High. Kaiser chose a different path and went to serve for Queen and Country. The rest is HISTORY.

A few words from the band.

" It was a bit of a shock to be asked if I minded the songs being released after all this time. When I found out we don't get anything and the money goes to The Christie cancer charity, I was over the moon. What a fantastic cause having lost both my parents and numerous friends to cancer. It was only right we said yes, go ahead " **Kaiser**

" We used to get picked up in Andy Couzens' big American car, he had a 55 Chevy, bright red. Andy would pick us all up and drive back to Macclesfield and then take us all home around midnight. Normandy is a belting song. Mani's bass, Squire and Couzens guitars combining to make a lost classic " **Chris Goodwin**

" I seem to remember watching Woody Allen films.. but not a lot else " **Andy Couzens**
